Peering Toolbox

Nurani Nimpuno

RIPE80 – Connect WG

Peering Toolbox - Introduction

peeringtoolbox.euro-ix.net

- Community led Euro-IX project
- Provide support and best practice information for new entrants into the interconnection community
- Act as a reference/guide that IXPs and networks can point others to for best practice information and learn how to peer successfully and competently
- By the community for the community

Peering Toolbox

- We've written some best practices documents
  - The idea is not to document **everything** here
    - There's already a lot of good work out there
  - Not to create a "peering bible"

- The peering toolbox wants serve as a great resource for the whole community
  - There are gaps that we would like to fill when it comes to practical information on peering

Peering Toolbox – We want your input

- Want to contribute?
    - If you have good material – send it to us! ☺
    - If you want the peering toolbox to reference your documents – get in touch so we can link to you!

- We want your input

Peering Toolbox - Survey

- We've put together a survey to collect feedback;
- For networks - https://www.surveymonkey.co.uk/r/fornetworks
- For IXPs - https://www.surveymonkey.co.uk/r/forixps

- Please take a few minutes to answer the questions
- Watch this space for details of a webinar and the results of the survey...

- Contact us – peeringtoolbox@lists.euro-ix.net
